

Partnering with ScribeAmerica

The Nation's Leader in Medical Scribe Services

Doctors Save Lives. Scribes Save Doctors.

ScribeAmerica is the standard in professional scribe training and management. By continuing to innovate and expand the scribe industry we will fundamentally improve delivery of care and quality of life for medical providers nationwide. Together, we can revolutionize how patient care is delivered.

TRAINED MEDICAL SCRIBES FOR YOUR PRACTICE

We understand that every practice is unique, so our company and our scribes adapt to the specific characteristics of your workplace. We offer emergency medicine, out-patient, hospitalist medicine and other scribe programs, as well as technology and personnel solutions that address revenue cycle management, the transition to value-based-care, and more through our HealthChannels family of companies.

Twenty-four hour coverage is available; you may also have as many scribes on as needed for overlapping physician coverage. And yes, even holidays get covered; all scribes are required to work at least one holiday per year. New EMR? We will train and orient new hires to your specific medical documentation.

Our robust, centralized recruiting department uses a standardized and sophisticated process to obtain the most qualified personal possible in your unique region of the country. As the industry leader in professional scribe management, ScribeAmerica is the top choice for applicants in every market in the country. This allows us the luxury of selecting only the best candidates, and graduating only those who meet our high standards for excellence in professional medical documentation.

SoNE Health and ScribeAmerica have partnered together to offer SoNE HEALTH members exclusive program access and savings.

“ ScribeAmerica has helped us grow our business. In the past five years, we have doubled our volume from 35,000 to 75,000— all of this without increasing the number of staff that we have. I chalk a lot of that up to the partnership we have with ScribeAmerica being able to implement quality scribes that have helped us improve our throughput and speed without an added burden of cost, while still maintaining the same quality of care. ”

Ready to learn more? **Brian Malek**, ScribeAmerica's Director of Operations, is available to discuss the solution that works best for you. Connect with Brian at brian.malek@healthchannels.com.

ScribeAmerica is the nation's most frequently used medical scribe company. We have successfully introduced medical scribe programs across a wide spectrum of local environments, including rural hospitals, urban hospitals, teaching facilities and private practices. With a ScribeAmerica scribe program physicians can increase their reimbursements, leave on time, avoid cash disruption with ICD-10, improve job satisfaction and overall quality of life, while delivering more efficient patient care directly at the bedside, not behind a computer.

ScribeAmerica has ranked on the Inc. 500|5000 list for a decade for fastest growing private companies. In addition, Modern Healthcare named ScribeAmerica one of the Hottest Healthcare Companies in 2013. ScribeAmerica is a member of the **HealthChannels** family of healthcare solutions. HealthChannels has been a trusted partner to health systems for nearly two decades. HealthChannels offers practical, effective and tailored solutions valued by our clients.

THE NATION'S MOST FREQUENTLY USED MEDICAL SCRIBE COMPANY

ScribeAmerica is the standard in professional scribe training and management. By continuing to innovate and expand the scribe industry we will fundamentally improve delivery of care and quality of life for medical providers nationwide. Together, we can revolutionize how patient care is delivered.
